

MULTI STORAGE AREA

Two large, multi storage areas for bulk cargo, wind projects and project cargo

The multi storage areas are suitable for several types of bulk cargo, such as biomass, wood chips, raw materials, and other bulk products. The areas are also suitable for both wind projects and project cargo.

Total area > **30,500 sqm**

FACILITIES

- Areas of 10,500 sqm and 20,000 sqm
- Concrete blocks for dividing the sizes as needed
- Coated with SF coarse aggregate and sewerage for dewatering
- Approved for 32,000 cbm and 47,000 cbm wood chips in piles, up to 6 m high
- Further approval for 32,000 cbm wood chips on the quays

OPTIMAL LOCATION

- Extremely attractive location very close to the quay and especially attractive for HUB loads where reloading can be efficiently performed
- Direct distribution to the entire Central Jutland via the northern bypass

SAFETY

- The storage of wood chips is approved in accordance with technical regulations for certain flammable companies and storage
- Separate contingency plan is prepared
- Temperature measurements are made using Webstech temperature spike acc. to the procedure description
- Hydrogens, etc. are available for fire fighting

Have a dialogue with the Port of Grenaa - we have the space, the network and **the will to succeed**

DENMARK'S MOST CENTRAL DEEP WATER PORT

The Port of Grenaa is one of the biggest commercial and industrial ports in Denmark, centrally located and with plenty of space for development.

Strong focus on core segments and excellent network connections make the Port of Grenaa the foundation on which to realise the potential of your business.
